FABRIC CONFECTION

The fabrics for our systems are manufactured by our trusted partner, SolFaction.

SolFaction has an extensive collection of solar shading fabrics for the production of both new fabrics and replacement fabrics for our systems.

More information about the available options can be found on the SolFaction [website](#).

GJ - RB SERIES

Indoor roller blinds. Systems from our RB series can be used horizontally or vertically. Available for small and large window areas (width and height).

GJ - RB Series (63-100)

Roller blind systems for very small to very large windows.

GJ - RB Vertico

Roller blind systems with a width of up to 30 meters and a height of up to 8 meters, wider sizes

GJ - RB Interio

Internal roller blinds for large (horizontal) glass surfaces. Can reach heights of up to 16 meters.

GJ - RB Conston Series

Roller blinds with conston tension boxes for horizontal or inclined applications.

GJ - ZP SERIES

Zip-screen solutions available in various designs and applications. We are capable of implementing these in very small or very large (width and height) systems.

GJ - ZP Series (85-150) Standard Screen and Zip-Screen solutions.

GJ - ZP Max / GJ - ZP High / GJ - ZP Zoomtech Zip-screens for larger windows (width and height), up to 10 meters in height and 10 meters in width.

GJ - SZ SERIES

ZIP-Screens with spring tension for various applications. The systems can be used in many situations; both from bottom to top, horizontally, diagonally, or even running sideways. Suitable for external and internal installation.

GJ - SZ Square

Rectangular systems for large and smaller glass areas. Maximum dimensions of 6 meters width by 9 meters height.

GJ - SZ Curved

Curved system with maximum dimensions of 3.5 meters width and 9 meters height.

GJ - SZ Sideways

Innovative side-running Zip-screen system. Can operate in both directions, with a maximum length of 9 meters.

GJ - SZ Sideways Curved

Combination of the SZ - Curved and the SZ - Sideways systems, with a maximum length of 5 meters.

GJ - MW SERIES

Systems for unique situations and window shapes, available in a variety of forms and versions. Indoor installations can be customized with a smaller cassette or even without, upon request.

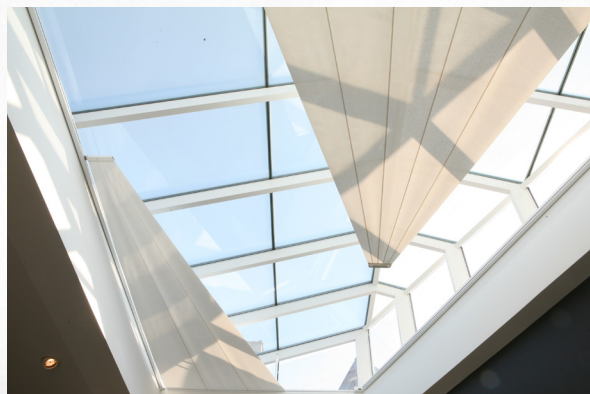

GJ - MW Square

Spring-tensioned system for rectangular window areas, with or without guides.

GJ - MW Triangular

System for triangular windows.

GJ - MW Angular

System for parallel windows.

GJ - MW Trapezoid

System for trapezoidal windows.

GJ - MW Round

System for arched or round windows.

GJ - MW Dome

System for dome-shaped windows.
