## GJ - FABRIC COLLECTIONS

### AWNING FABRICS

GJ - Solar Pro Collection

### SCREEN FABRICS

GJ - Solar Screen Collection

### Other collections

Soltis, Sergé and other interior fabrics.

### Other collections

Dickson, Sattler and Ten Cate fabrics.

## GJ - RB SERIES

Roller shutter systems for indoor use. Systems from the RB series can be used horizontally or vertically. Available for small and large window areas (width and height).

### GJ - RB Series (63-100)

Roller shutter systems for very small to very large windows.

### GJ - RB Vertico

Roller blind systems with a width of up to 30 meters and a height of up to 8 meters, wider sizes are also available upon request.

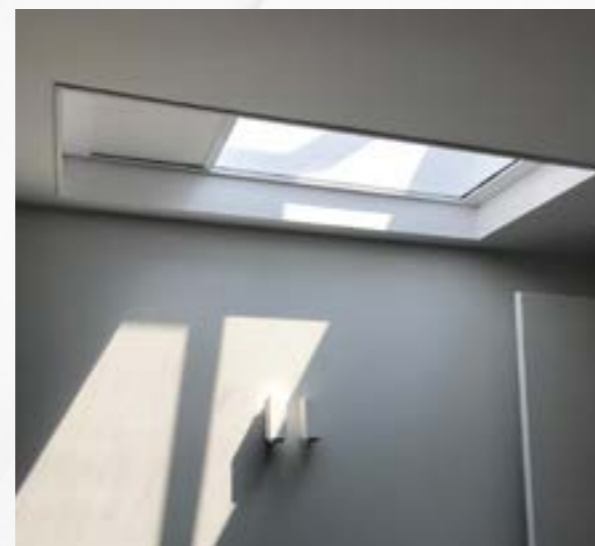

### GJ - RB Interio

Internal systems for large (horizontal) glass surfaces. Can reach heights of up to 16 meters.

### GJ - RB Conston Series

With Conston tension boxes for horizontal or inclined applications.

## GJ - ZP SERIES

Zip-screen solutions available in various designs and applications. We are capable of implementing these in very small or very large (width and height) systems.

### GJ - ZP Series (85-150)

Standard Screen and Zip-Screen solutions.

### GJ - ZP Max

Zip-screens for larger windows (width and height), up to 10 meters in height.

## GJ - SZ SERIES

ZIP-Screens with spring tension for various applications. The systems can be used in many situations; both from bottom to top, horizontally, diagonally, or even running sideways. Suitable for external and internal installation.

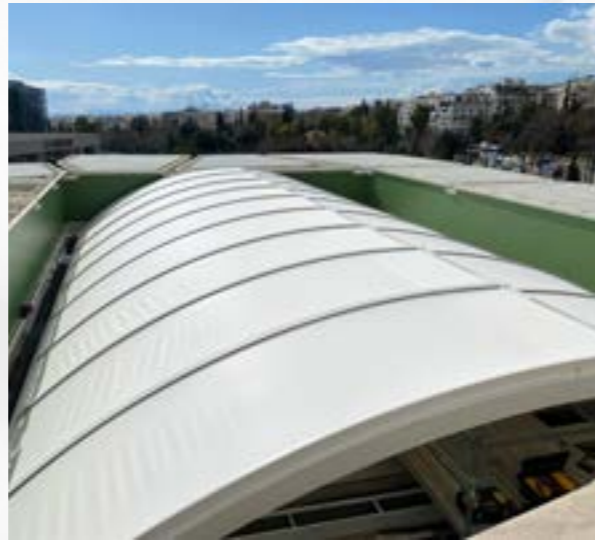

### GJ - SZ Square

Rectangular systems for large and smaller glass areas. Maximum dimensions of 6 meters width by 9 meters height.

### GJ - SZ Curved

Curved system with maximum dimensions of 3.5 meters width and 9 meters height.

### GJ - SZ Sideways

Innovative side-running Zip-screen system. Can operate in both directions, with a maximum length of 9 meters.

### GJ - SZ Sideways Curved

Combination of the SZ - Curved and the SZ - Sideways, with a maximum length of 5 meters.

## GJ - MW SERIES

Systems for unique situations and window shapes, available in a variety of forms and versions. Indoor installations can be customized with a smaller cassette or even without, upon request.

### GJ - MW Square

Spring-tensioned system for rectangular window areas, with or without guides.

### GJ - MW Triangular

System for triangular window areas.

### GJ - MW Angular

System for parallel window areas.

### GJ - MW Trapezoid

System for trapezoidal window areas.

### GJ - MW Round

System for arched or round window areas.

### GJ - MW Dome

System for dome-shaped window areas.
